DOUBLE SLOTTED TURRET NUTS

Class (CL8), Dual-lock self lock nut, zinc passivated (Chrome 6 free) meeting the designated standards NFE25411 & BS EN ISO 2320:1998 (partially replaces BS 4929-1:1973)

Industrial examples: wherever there is continual or intermittent vibration which could cause fastener loosening:

Railway Industry

- Electrical connection to tracks and overhead
- Electrical lines to connection boxes
- Fasten wheels to the wagons
- Fasten rails to cement sleepers
- Stretcher bars

Other Industrial Applications

- Off-shore platforms (Anti-corrosion)
- Mining conveyors
- Cranes
- Agricultural equipment
- Compressors

European Rail Standard Certified "SNCF" - CF 00-040 FP n° 6

NETWORK RAIL CERTIFIED (CERTIFICATE NUMBER PA05/03451, 19/12/07)

DIMENSIONS :

According to NFE 25 411

THREAD:

Profile ISO - according to ISO 965-2 Quality 6H

MECHANICAL CHARACTERISTICS :

According to NF EN ISO 2320

Conforms to European RoHS Directive

Manufactured within the EU by Alcoa Fastening Systems, ISO 9001V2000 - EN9100 - ISO 14001
